

## ABOUT

### Julie White, DVM, DACVP Pathologist

Julie White joined Inotiv in May 2018 as an anatomic pathologist. She primarily provides pathology support to investigators working with models of IBD, psoriasis, lupus, and other inflammatory/autoimmune diseases. In addition, she maintains an ongoing collaboration in the fields of cancer and immunotherapies with the Laboratory of Comparative Pathology in New York.

#### ~25 Years of Experience

#### Areas of Expertise

- > IBD
- > Psoriasis
- > Lupus
- > Fibrosis
- > Cancer immunotherapies

#### My Jam

- > Ultramarathons
- > Hiking
- > Parrots

Dr. White joined our team after she served for over 10 years as a pathologist, mentor, and assistant professor at the Tri-Institutional Laboratory of Comparative Pathology (Memorial Sloan Kettering Cancer Center, Weill Cornell Medical College, and The Rockefeller University) in New York City. She also served as an adjunct faculty member at the University of Connecticut during this time. She joined Inotiv through the acquisition of Bolder BioPATH.

Julie earned her DVM from Louisiana State University. She began her pathology residency in 2000 at Angell Memorial Animal Hospital and Tufts Veterinary School. She has been a diplomate of the American College of Veterinary Pathologists since 2003.

We are happy to have a pathologist so experienced in inflammatory and autoimmune diseases and models on our team to meet our investigators' needs.
