Request 01

1 Species Requested:

Strain, if required:

2 Product:

If Tissue, please specify:

3 Sex:

If mixed, please specify ratio:

4 Anticoagulant:

Other: (please specify)

5 Quantity:

Individual:

Pooled:

6 Shipping Temperature:

Blood products are shipped at 4°C

7 Shipping Requirement:

Same day delivery of rodents on Mondays is currently unavailable

8 Other Requirements:

For Internal Purposes Only:

Appendix 1

PURPOSE AND BENEFITS:

What is the purpose of the work you require the product for?

e.g. Plasma protein binding studies – used to prepare calibration and QC samples

What benefits does your work accrue through the use of the requested product?

e.g. Drug development – enabling drugs to reach market faster

Why is this work not possible without the use of products derived from animals?

Provide a brief explanation

Inotiv cannot legally supply an animal product, for education and training purposes, as it is not a permissible purpose under this licence

The 1986 (ASPA) act sets out seven 'permissible purposes' and only work that fits into one of these may be carried out in the UK. This product is provided to support work in the following categories; please select which purpose your work falls under.

- a. basic research;
- b. translational or applied research with one of the following aims —
 - i. avoidance, prevention, diagnosis or treatment of disease, ill-health or abnormality, or their effects, in man, animals or plants;
 - ii. assessment, detection, regulation or modification of physiological conditions in man, animals or plants;
- c. development, manufacture or testing of the quality, effectiveness and safety of drugs, foodstuffs and feedstuffs or any other substances or products, with one of the following aims mentioned in paragraph

**Additional question for the supply of dog products:*

Explain why your program of work cannot be achieved by using a species other than dogs

DECLARATION:

I can confirm that the samples referred to above are required for the purpose identified and that there is no suitable alternative available to using animal derived material.

I also confirm that the products requested will not be used for education and training purposes.

While these materials are not believed to be dangerous as with human samples, it is possible they may contain hazardous infectious agents and Inotiv policy is to recommend that from a COSHH point of view they are treated as potentially hazardous and users should ensure that these materials are handled with care and ultimately disposed of by an appropriate method.
